

PETS MAKE A FAMILY PARTNERSHIP SPAY/NEUTER PROJECT

Sponsored by the Humane Society of East Texas
In Partnership with Participating Veterinarians

The goal of this project is to reduce pet overpopulation in our communities through spay/neuter services for the public who request lower costs for spay and neuter procedures and to promote the importance of continuing veterinary care for pets.

Surgeries are scheduled each Wednesday at the Humane Society's surgery suite.
To schedule an appointment call 903 526-5598
